Gardom Lake Bible Camp has a wide range of facilities and resources to accommodate your programming needs. It is our hope that your stay here is a time to develop and discover group unity and dynamics. Our camp facilities provide an excellent opportunity for children and youth to discover their own personal strengths and how their strengths can benefit others around them. Our staff feels that it is important for all children and youth to experience camp as a place where what they wear, how they look, their background or where they come from doesn't matter. The activities they participate in will be achieved through personal challenge and the encouragement of their peers and supervisors.

In programming your event it will be helpful to keep your objectives in mind. What is the purpose of this field trip? For example, is the purpose for; **Experiential Education, Team/Leadership Building, and/or Recreational**. Keeping these objectives in mind will determine how you set up the class atmosphere, before even arriving at the camp.

Here are some ideas to keep in mind when programming and scheduling your field trip to Gardom Lake Bible Camp.

- ❖ How long are you staying at the camp? Determine how many activity blocks (suggested 1 hour each) you may want to schedule into your day(s).
- ❖ How many children/youth are you bringing? Determine how many hours of programming you will need for your group ranging from 8-12 participants for each activity.
- ❖ How many parents/leaders/teachers are accompanying the group? Having a proper student: supervisor ratio of 8:1 is important and required by the camp. Some activities do require the assistance of an adult due to camp staffing and cost.
- ❖ For overnight stays, **each cabin must have an adult chaperone**.

Listed below is information regarding some of the programming that we provide. If you have any questions about the programming and scheduling of your event please do not hesitate to call the camp office, email us or fax us.

Supervision and Staffing Your Event:

It is important that one specific person be designated as leader for your group. This person should be the one maintaining communications between the camp management and their group. It is therefore essential that the designated leader be the first to arrive, be on site for the group's entire stay and be the last to depart.

Youth and children's groups (up to age 16) must be supervised by adults (18 years or older) one per eight campers. These adults (supervisors) must stay in the cabins with the students (campers).

The camp does not provide a lifeguard. We strongly recommend that each group using the waterfront, bring their own lifeguard (a person 18 years or older with a valid NLS certificate). The camp may require certain groups to have a qualified lifeguard to use the waterfront facilities.

Snowmobiles and ATV's

For noise and safety reasons the use of snowmobiles and ATV's is prohibited on the property.

Use of the Waterfront and Equipment

Because of the danger the waterfront brings, it is essential that someone be responsible for all who are swimming or boating 100% of the time. Storms come on the lake very quickly it is important that you insist that everyone get off the water at the first sign of bad weather. The motorboat is for emergencies only it is not to be used for recreation. The rental group's contact person is responsible to ensure that all waterfront equipment is being properly used and all boating equipment is properly stored and locked up after use.

Camp Maintenance

To keep the costs down, we ask that groups help in cleaning the facilities. This means keeping your own washrooms clean and picking up after yourself. In addition, we require that the camp be left clean and tidy upon your departure. Detailed instructions of what is required will be given to your group's designated leader upon arrival at camp.

Health and First Aid

Gardom Lake Bible Camp does not have a nurse on staff. It is to your benefit to appoint a qualified person to administer first aid during your stay.

The camp has a basic first aid kit, we strongly recommend that each group bring a fully stocked first aid kit with common meds, e.g. acetaminophen, antihistamines, etc.

Hospitals and medical services can be found in Salmon Arm (16 km.) Salmon Arm Hospital... (250) 833-3600
